## American Sign Language Course Descriptions

The text used for the course is A Basic Course in American Sign Language. The text is designed for three levels: **Beginners** Chapters 1-7; **Intermediate** Chapters 8-14; and **Advance** Chapters 15-21. Each course level consists of an eight-week session.

**Beginning Course (Chapters 1-7):** The course will cover the introduction for the syntax of sign language, facets of deaf culture, and expressive and receptive fingerspelling comprehension. Each week students receive instruction on a specific objective. They will apply these techniques through conversational language using sign.

**Intermediate Course (Chapters 8-14):** Students will review Chapters 1-7. They will continue to learn various aspects of sign language. Students will participate in weekly activities that will enhance their signing skills. As a final project of this session, students will create a story in sign language. Each student will have an opportunity to demonstrate expressive and receptive language skills.

**Advance Course (Chapters 15- 22):** Students will continue to learn various aspects of sign language. Students will participate in weekly activities that will enhance their signing abilities. Students will interact every week for thirty- minutes with their voices off (signing only). This will allow students to think in one language mode. As a final project, students will attend a Silent Supper. They will interact with persons in the Deaf Community. This will allow each student to work on their expressive and receptive language skills.

**ASL-Plus:** This course is design for students who have completed the text, A Basic Course in American Sign Language. This course will consist of “hands on” practice sessions. The class will be voice off (**no talking**). This will allow the students to think in one language-American Sign Language (ASL). This will increase their receptive skills and enhance their expressive signing skills. Each week students will participate in various activities using sign language. It is an eight-week class consisting of a two-hour practice session per week. **No text** needed for the course. Hand-outs will be provided throughout the course.

**Summary:** Students will participate in weekly activities that will enhance their signing skills. This will allow each student to work on their expressive and receptive ASL skills.
